

Good Heart

The Mynabirds

I've been towing a heavy line
Got caught up in old boots and tin-can finds
I've been trying so hard to be free
But the weight of the world really got the best of me

And the poets, they write their lines
And the road has a song gets me every time

But you've got a good heart, baby
You've got a good heart, it's true
Mine's not so strong
But you know I've got this song
And if you keep the beat, I'll keep the tune

I've been laying up since I had a spree
Wondering if the world finally got the best of me
Well the Fates can draw their lines
But you draw me in right on time

You've got a good heart, baby
You've got a good heart, it's true
Mine's not so strong
But you know I've got this song
And if you keep the beat, I'll keep the tune
