

Bright Lights

The Naked and Famous

I feel a little empty
So fill me up
Just a little hollow
Who wants to fuck?
This is nothing
This is great
I am bored now
I can't wait

I like the bright lights
I like to shout
Don't need a reason
To get out
I like the bright lights
I like to pout
Don't need a reason
To get out

There's nothing better
Then to shake
I can't remember
Another black out
Let's hit the floor
It's less to deal with
Yes, yes, yes, yes / less is more
Give me commotion
A little soap
Pour me an ocean
And i can float

I like the bright lights
I like to shout
Don't need a reason
To get out
I like the bright lights
I like to pout
Don't need a reason
To get out
