

Dadada

The Naked and Famous

Da da da da dadadada da da

There is no light
No light outside
There is no light
No light outside

I think I'm gonna blow
I think I'm gonna lose control
Cause I'm fighting the will
This machine could kill, kill, kill
Just a little bit more
Just a little that I need to ignore
Cause I'm beginning to tear
At the seams from the sound cause all that I hear is,

Da da da da dadadada da da

There is no light
No light outside
There is no light
No light outside
