

## Silver Lining

### The Neighbourhood

You had your heart on your sleeve the last time  
Took it so seriously the last time  
Gave everybody a piece the last time  
You said it would be the last time

If you find that silver linin'  
You shouldn't know what that means  
You've been movin' fast, splittin' at the seams  
If you find that silver linin', you're already in deep  
There's another piece, that was buried underneath

You were out of your league the last time  
Didn't expect 'em to see your bad side  
You told 'em they could believe in you (Believe in you)  
Now you just gotta believe it too  
Oh woah, yeah

If you find that silver linin'  
You shouldn't know what that means  
You've been movin' fast, splittin' at the seams  
If you find that silver linin', you're already in deep  
This could be your last hope, that might be all you need

If you find that silver linin', you're already in deep  
This could be your last hope
