

## First Trip

The Nixons

How long since I've seen you I don't know  
It seems like 50 million years ago

I still think of you every now and then  
And last words you said let's be friends  
Yet I remember  
Do you recall  
I was the one you let inside  
Your solitary room  
I was the one who took you on  
Your first trip to the moon

Just when you've been thinkin  
You've got it all together  
Here I am again looking through you  
Wouldn't you think that this time  
That we could get it right  
You say that stuff so strong  
And then you turn down the light  
Cause you remember yea you recall

I was the one you let inside  
Your solitary room  
I was the one who took you on  
Your first trip to the moon

And sometimes it's hard to see  
Tomorrow through yesterday  
It's alright to talk about it  
But I'm here today

How long since I've seen you  
I don't know  
Do you remember  
Do you recall  
Well I recall

I was the one you let inside  
Your solitary room  
I was the one who took you on  
Your first trip to the moon  
There was a time I was inside  
Your lonely, lonely room  
I am the one who took you on  
Your first trip
