

The Fall

The Nixons

Is this the way
Do you recall any of this?
Do you know where we're going?
Can you see what's ahead
Can you make out a path
Can we keep our footing?

And if you keep me awake
And you can show me the way
I might sometimes lead
But for now for the fall
Will you promise that
Someone will catch me

'Cause I'm falling in
Into the real life
Falling in
Into the real life

There was a time that I felt
I had a guide
But I'm needing a revelation
I've been spit out and spit on
But can't even keep together
My disjointed frustration
I'm still waiting

Up until now it was
A question of how and no deeper
It's the who and the why
And the reasons I just can't remember

'Cause I'm falling in
Into the real life
Falling in
Into the real life

And you don't know
And I don't know
Can you keep me awake
And show me the way?

Are you the one, do you believe if I crumble?
And put me in back together
Is this the time and place that we might begin
What might be forever, forever

Up until now it was
A question of how and no deeper
It's the who and the why
And the reasons I just can't remember
Can't you remember

Now I'm falling in
Into the real life
Falling in
Into the real life

You don't know and I don't know

I don't want your reality, no more
No, no more, no more
Is this the way, do you recall
Is this the climb before the fall
Falling in, falling in, falling, falling

Can you keep me awake
Show me the way
Keep me awake, show me the way
Catch me, I'm falling, falling

This is all we are, get ready for the fall
Is this the way, do you recall any of this?
Do you know where we're going?
