

Bedtime

The Oak Ridge Boys

When she walks in the room,
Without saying a word and turns the TV off,
And then turns out the lights, this early at night,
I know what's goin' on.

Baby it's bedtime, bedtime,
The way she's looking at me it easy to see what's on her mind.
Good night, it's gonna be good night
Loves running deep, there's no time to sleep, it's bedtime.

She can say she's in love, but it's something to see
When all of that love comes alive
Filling me with desire, she can sure start afire,
With only the light in her eyes.

Baby it's bedtime, bedtime,
The way she's looking at me it easy to see what's on her mind.
Good night, it's gonna be good night
Loves running deep, there's no time to sleep, it's bedtime...
