

Doctor's Orders

The Oak Ridge Boys

Doctor told me sleeping alone
Ain't no good for my heart
If I don't do what he tells me to
It just might break me apart

You know I'm under doctor's orders
I really oughta be in bed
You know I'm under doctor's orders
That's what my doctor said

My doctor told me to find you girl
Stay with you all night
I'm gonna be fine but it's gonna take time
And a whole lot of holding you tight

He said you don't need pills and shots won't do
A transfusion would be useless too
Your sweet lovin' is what I need
To get my heart back on it's feet
