

## If You Can't Find Love

The Oak Ridge Boys

I don't expect you to remember  
I'm just a lover from the distant past  
I know it's hard when all that time goes by  
In the pale of the players never last.

The love we had wouldn't pass for perfect  
And we lost a battle on the way  
If you run and hide they used to tell this little boy  
You could live to fight another day.

If you can't find love and you're lost and lonely  
If you come to me I'll take your hand  
If you can't find me just think of the memory  
When you dream of love I'll be your man.

I guess I'll never know for certain  
If you'll let me stay or if I'll go  
All I know is the love I have for is something else  
The way I feel is something you should know.

Just think of the memory, (When you dream of love I'll be your  
man)
