

Only One I Love

The Oak Ridge Boys

Morning eyes callin' like the sun risin'
Your smile comes shinin' through
Lovers hearts wakin' dreamy love makin'
Once again I want to tell you baby

You're only one, only one I love
You're the only one that makes me want to
Push the world away hold you close and say
You're the only one I love

Evening eyes greet me loving hand gently
Make my worries disappear
Rub my tired shoulders talk the day over
Cause the only one that cares is you girl
