

She's Gone to L.A. Again

The Oak Ridge Boys

She's gone to L.A. again
That's lost angel to me
This time she won't be coming home
That's what the note said she left
Under the key
It was good while it lasted
But it's gone

She always dreamed of the lifestyle
In Southern California
She said that she'd live there some day
And I hope that she finds
What she's looking for
She's found a place
In my heart she'll always stay

She's a hard loving woman
But she's looking for more than love
She needs a life of her own
She has to spread her wings
And fly her way
I still love her
Though she's left me here alone
