The Orwells

Queen dream from across the city
Cashing checks from a magazine
From the copper to a TV screen
The kind of face that's haunting me

Something about it, something about it
Isn't quite right! Isn't quite right!
Livin' without it, livin' without it
In plain sight! In plain sight!

NBC to the NME
To talk shows on the BBC
Heathrow to ORD
Too busy to drink with me (aww)

Something about it, something about it
Isn't quite right, isn't quite right
Livin' without it, livin' without it
In plain sight! In plain sight!
