

Eye to Eye

The Outfield

I want to get close
want to spend my time with you
We gotta sit down and talk
Got to see things eye to eye

I tried to tell her but I couldn't begin
It's not a thing that takes a moment
I'm coming over better let me come in

You'll understand me
A lot better when the picture's all clear
I'm yours and anyway you want me
Move over 'cos it's lonely over here

You've got no choice
You've got no say when it comes round
I'm gonna jump down don't walk away
We've got to see things eye to eye

There was something when I met you
There was something in the words we didn't say
It was something that we both knew
It was something that don't happen every day

You've got no choice
You've got no say when it comes round
I'm gonna jump down don't walk away
We've got to see things eye to eye
