

I Can't Wait

The Outfield

It's gonna be a long drive home tonight
Knowing that it's been so long without you
There are reasons and we both know why
You know I couldn't build my world around you

And I can't wait for love
Oh, I can't wait for love

I think of all the love I've got tonight
Even if it's inside or outside you
I think of all the times we said goodbye
You know I couldn't face this world without you

It's gonna be a long drive home tonight
Knowing that it's been so long without you
There are reasons and we both know why
You know I couldn't build my world around you

And I can't wait for love
Oh, I can't wait for love
And I can't wait for love
Oh, I can't wait for love
