

In Your Company

The Outfield

As the day just slips away
I can't stop myself from dreaming
Slow down, slow down
We're living for the moment

I'm on the top of the world
I'm on the top of the world
It feels good to have you near me
I'm on the top of the world
I'm on the top of the world
I'm so happy in your company

As the minutes tick away
This is all I ever wanted
Cool down, cool down
Don't take it all for granted

I'm on the top of the world
I'm on the top of the world
It feels good to have you near me
I'm on the top of the world
I'm on the top of the world
I'm so happy in your company

It's too hot to sleep tonight
Waves are breaking on the ocean
Out there, out there
A land of mystical emotion

I'm on the top of the world
I'm on the top of the world
It feels good to have you near me
I'm on the top of the world
I'm on the top of the world
I'm so happy in your company
