

My Only Friend

The Outfield

As time goes by, I realize
The way I used to be
Looking back I've seen it all
Can't take it from me

As my world turns around
I wonder how it ends
And as I make, my way through love
You're my only friend

When people say
Times were changed
I wonder what I'll see
As I look, behind me now
Turn my past from me

If I had a chance
I'll do this all again

And as I make, my way through love
You're my only friend

And as I make, my way through love
You're my only friend

My only friend
