

# Take Me Home

The Outfield

I could tell just be sitting downstairs  
I had you in the palm of my hand  
You could see that I didn't wanna stay  
Knew I wanted lovin' like a man  
I could feel your hands perspiring  
You could see my temperature rising

Take me home and we can dance all night  
Shake me baby - makes me feel alright  
Gimme some loving - till the broad day light  
Take me home and we can dance all - dance all night

I could tell it was gettin' kinda late  
Couldn't wait to get you all alone  
You could see that I didn't wanna wait  
I can't wait for you to take me home  
Come together perfect timing  
This could all be so exciting

When I touch you set my hands on fire  
But I just can't keep my eyes off you  
You're the one that fills me with desire  
I'll do anything you want me to  
I'll do anything you want me to

Don't think twice if the devil's gonna take  
you home tonight  
You feel so fine and I'll soon be makin'  
love to you  
I still believe in a perfume garden  
You get me beatin' something startin'
