

Through the Years

The Outfield

Nobody said this was easy
living is long than again
I used to think it was simple enough
just goes to show how I've changed
Nobody makes it forever
Let's make a deal with the pain

If you wanna hold on to love,
You got to endure the tears.
If you wanna enjoy the laughter,
You got to ignore the fears.
And if we're gonna make it together,
We're got to make it through the years.

Nobody knows all the answers
There ain't no rules in this game
Love was still lost I still can't take the cost
Over and over again
They've all get a little temptation
No matter how hard they prayed. So...

If you wanna hold on to love,
You got to endure the tears.
If you wanna enjoy the laughter,
You got to ignore the fears.
And if we're gonna make it together,
We're got to make it through the years.

I hear my conscience calling
that I don't need to know
I see the future out there
But which way should I go?

If you wanna hold on to love,
You got to endure the tears.
If you wanna enjoy the laughter,
You got to ignore the fears.
And if we're gonna make it together,
We're got to make it through the years.
