

Wonderland

The Outfield

Come and take a walk inside this wonderland
Many things to see that you won't understand
Images that change with every creed and colour
Look around observe the things we share together

Ooh, and if we were worlds apart
Ooh, nothing would change our hearts

If ever I fall out of bed
I land on my feet and not my head
When I do, I dust me down and start again
If ever I swallow my pride
You know I don't give up inside
And somewhere down the road
I'll turn the wrong to right

Come and look out on the desert and the sand
Please don't venture out there into that terrain
Many people try but don't return together
Putting fingers in the pie that's hot forever

Ooh, and if we were worlds apart
Ooh, nothing would change our hearts

If ever I fall out of bed
I land on my feet and not my head
When I do, I dust me down and start again
If ever I swallow my pride
You know I don't give up inside
And somewhere down the road
I'll turn the wrong to right

Ooh, wonderland
Ooh, wonderland

I'll be there for you, if you'll be there for me
A glass of wine tonight, for me a cup of tea
We can sit and put the world to rights together
You still light my fire, you've turned me on forever

Ooh, and if we were worlds apart
Ooh, nothing would change our hearts

If ever I fall out of bed
I land on my feet and not my head
When I do, I dust me down and start again
If ever I swallow my pride
You know I don't give up inside
And somewhere down the road
I'll turn the wrong to right

Won-der-land, won-der-land
Ah wonderland
