

## Love at First Sight

The Outlaws

Ooh, love at first sight  
Ooh, love at first sight  
Ooh, love at first sight  
Love at first sight

Well, I've been feeling kinda lowdown  
So lonesome all alone  
Too many faces all around me  
I knew that they'd been there all along

So I went searchin' for an angel  
I went lookin' for a queen  
Well, I been dreamin' of a lover  
Another to take my heart away

And it was ooh, love at first sight  
She told me true love at first sight  
She promised me new love at first sight  
Love at first sight

Never knew that I was lonely  
I never knew that I was loved  
But if there ever was a reason  
She was the only one there was

She touched me softly, never sayin' a thing  
I swear I fell right down inside of her  
And then she took my hand and slowly laid down  
I closed my eyes and then I knew

That it was ooh, love at first sight  
She told me true love at first sight  
She promised me new love at first sight  
Love at first sight
