

You Can Have It

The Outlaws

I don't shake for nobody
If I can't with you
'Cause if I came home
And you were gone
I don't know what I'd do
These lost and lonely hours
Are turnin' into days
You're still my only flower
Although I am away

You can have it, I mean it all
Pick me up and watch me fall
Your love is just the kind
That makes a man feel so fine

Here we are alone
What burns his heart is stone
Go on and take my heart
You can have it all
Take all my love
You can have it

Start the fire a-burnin'
All I need is you
Oh, I wish the door would open
And you'd walk right in on cue

But not tonight
Land or flight
Another one alone
I can see the day a-comin'
When I'll be with you at home

You can have it, I mean it all
Pick me up and watch me fall
Your love is just the kind
That makes a man feel so fine

Here we are alone
What burns his heart is stone
Go on and take my heart
You can have it all
Take all my love
You can have it

Take all my love
You can have it
