

Bad Road

The Ozark Mountain Daredevils

Check the dream, check the map
Check the spring in your own time trap
Check the plum, check the moon
Check the sun when the day is doomed

It's a bad road you're on

Turn the wheel, turn the page
Turn the angels on with rage
Turn your cheek, take your turn
Learn the one thing left to learn

It's a bad road you're on
It's a bad road you're on
It's a bad road you're on

Pick the time, pick the place
Pick the lock on the last embrace
Kick the tire, break the ice
Trip the wire on your own device

Some will leave, some will last
Some believe that the die is cast
Some will hide, some will serve
Some will ride that deadman's curve

It's a bad road you're on
It's a bad road you're on
It's a bad road you're on

It's a bad road you're on
It's a bad road you're on
It's a bad road you're on
It's a bad road...
