

## Leatherwood

### The Ozark Mountain Daredevils

If I fell off to sleep and did not wake  
Would the Lord my soul to take  
And could the land that I've known also die  
Do you think of you and wonder why

Down in leatherwood  
That thought we leave behind  
Down in leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blue

Was a mad house all flooded by the rain  
Or did I once live it in a dream  
Throwing all good minutes to the sea  
Did you know the sky can also bleed

Down in leatherwood  
That thought we leave behind  
Down in leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blue

An inner voice it is telling me my verse  
Oh and if you're listening it can only make it worse  
It may be that there is a master plan  
On he who knows, he must be a great man

Down in leatherwood  
Hat thought we leave behind  
Down in leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blue  
Be blue,  
Be blue,  
Be blue
