

# Captivate

## The Paramedic

Oh yeah, Ha

Behold,  
The words of an angel,  
Captivated me.  
You know how to make me speechless,  
You know how to make me breathless.  
How could I feel this strong,  
But still feel so helpless?  
Well I don't know

I gotta let you know  
Never let you go  
Gonna let it show  
How much you mean to me now

Never let you down  
Lift you off the ground  
Know what I have found  
Is what you need to see now

I can feel it growing stronger  
And I know that you can too

I need you now

The only thing I need  
Is you right beside me  
Let's never lose our light  
Let's keep this fire burning bright  
You leave me so haunted  
You're all that I've wanted  
Let's fall in love tonight  
This fairy tale is ours to write

It would seem that you have this subtle nature  
Of tearing me down  
And I've always been the one to hold my peace  
And not make a sound  
You brought down my guard  
And you broke down my walls  
And I pray that you catch me  
When I start to fall.  
I know that I can't go through this life without you  
I need you now.

The only thing I need  
Is you right beside me  
Let's never lose our light  
Let's keep this fire burning bright  
You leave me so haunted  
You're all that I've wanted  
Let's fall in love tonight  
This fairy tale is ours to write

Have I been asleep?  
Was this just a dream?

The way that I feel  
Just seems so unreal.  
Please don't think that I'll give up (I still want you)  
I've come too far to lose (I still need you)  
Baby just let these words show (I still want you)  
That I still need you (I still need you)

The only thing I need (I still want you)  
Is you right beside me (I still need you)  
Let's never lose our light (I still want you)  
Let's keep this fire burning bright (I still need you)  
You leave me so haunted (I still want you)  
You're all that I've wanted (I still need you)  
Let's fall in love tonight (I still want you)  
This fairy tale is ours to write (I still need you) (2x)
