

Explorers

The Paramedic

Men stay the course
For your captain
Men stay the course
For your captain

We've been chasing horizons
For uncharted lands
With compass in hand
Keep a weather eye
On the stormy skies
We'll make it home tonight

We can't quench this fire
That burns inside of me
We can't quench this fire
We'll take it to the sea

This ship is mine
I'll sail until the waves run dry
My heart will settle like the seas
This blue depth will soon find peace
(peace)

Oh we're going down!

This ship is mine
I'll sail until the waves run dry
(waves run dry)
My heart will settle just like the seas
This blue depth will soon find peace
(peace)

Neptune has not taken favor
On our ship
Batten down the hatch!
We've been overcome!
Batten down the hatch!
We've been overcome...

This ship is mine
I'll sail until the waves run dry
My heart will settle like the seas
This blue depth will soon find peace
(peace)
