

If only I
had seen the signs
I would have kept myself out of this mess again

The stars lined up enough
to tag my story right
I should have known
there's more to this
than black and white
stuck with my head in the clouds
until reality...
stuck with my head in the clouds
until reality intrudes

If only I
had seen the signs
I would have kept myself out of this mess again

It seems as though
you can
move planets and stars
with the greatest of ease
and with one
string of words
you make all my inhibitions cease

If only I
had seen the signs
I would have kept myself out of this mess again

The stars lined up enough
to tag my story right
I should have known
there's more to this
than black and white
stuck with my head in the clouds
until reality intrudes...

If only I...
Had seen the signs
I would have kept myself out of this mess again.
