

## All I'm Holding Onto

The Parlor Mob

Fell and let me go  
We can find a way to get her  
We can find a way to get her

See you when the light is low  
And we can float on like a feather  
If it's bad we'll make it better  
Tripped and I fall  
Where we belong  
Out in the fields  
Where the flowers grow  
Keep from the stars  
Stabbed to the earth  
Now we all here

When all I wanted was someone to take me home  
How did you know that you would find me there alone  
You're all that I ever dreamed of  
You're all that I ever needed

The world has been divided  
Let's try to remain loyal  
Fallen apart back to the start everything's changed  
I don't know why  
Now you and I  
We never die  
We are forever

When all I wanted was someone to take me home  
How did you know that you would find me there alone  
You're all that I ever dreamed of  
You're all that I ever needed

(All I'm holding onto)  
How did you know that you would find me there alone  
Trapped and alone where we belong everything's changed  
I don't know why  
Came from the stars  
Back to the earth  
Now we all here  
You're all that I ever dreamed of  
You're all that I'll ever need
