

No One Asked Us

The Partisans

We had a demo tape but no one could decide
Which criminal to trust and why
So we got a name and that was said and done
Then we had a letter saying we had won

We didn't take the fall
We were going backwards
The price we paid was small
Cuz no one cared to asked us

We never wanted to get into the news
But still we all got screwed
Then we discovered that we were not the first
To get fucked up by that same old verse
