No One Asked Us

The Partisans

We had a demo tape but no one could decide Which criminal to trust and why So we got a name and that was said and done Then we had a letter saying we had won

We didn't take the fall We were going backwards The price we paid was small Cuz no one cared to asked us

We never wanted to get into the news But still we all got screwed Then we discovered that we were not the first To get fucked up by that same old verse
