

Get Well Soon

The Perishers

Promise to get well soon
To feel much better soon
When I come back in June
You'll still be around
Get well soon

Late November somethings wrong
You've kept it secret way too long
There's not much anyone can do
From here on in it's up to you
I wish it wouldn't
But you know
The show goes on, I have to go

Promise to get well soon
To feel much better soon
When I come back next year
You'll still be here
Get well soon

Can you feel it, is it true?
Is something growing inside of you
Wish there was something I could do
From here on in, it's only you
I dearly wish it wasn't so
But life goes on, I have to go...

Promise to get well soon
To feel much better soon
When I'll come back in June
You'll still be around
Get well soon

You'll get well soon
Just get well soon
