For nights and days we blaze

Inhale, don't it feel good?
Pass it around so we all could
Be on the same plain, I dwell amongst the clouds
Dream of other styles, captivate
(Meditate)

Open a bag that hasn't been touched A pile of bud, a sack of blunts Get backwoods to get back, good Fools

Number one cash drop Five G's to drop With no seeds to pop Time to recoup

Throw the stress in the trash can As we laughin' at the Afghan Of the herb I'm a fan Thc, keep it all in me

Can't you see, I'm
Gonna get some bubble gum
Been around the world like puffy
Puffin' in exotic hot spots
(In exotic hot spots)

Spit from heaven above, hourly dove
She started from the seed to sex the female
Couldn't cut her
Couldn't taste her till the hairs was half pale

It don't mean a thing to me
Just don't double clutch

Pass the stuff I know you had enough Gettin' all freaky and stuff Trees for breakfast, trees for lunch Rockin' weed, cool aid punch, Neslie crunch Crunch buds, lots of love and peace sign I feel fine

For nights and days we blaze
