

# Flesh And Bone

The Pierces

New love is not best love  
Pull me down and rough me up  
I'll fall with my arms up  
With my eyes open  
I won't give it up

Don't speak now it breaks the spell  
You're a good one baby, I can tell

All this time I was running blindly  
I wanna see you on the other side  
So come and find me  
Rest your head  
You can lay beside me  
You'll never have another lonely night  
As far as I see

Flesh and bone  
Perfect soul

Time flies and you grow cold  
Where's the feeling burning red and gold  
Bring back the swirling head  
The weightless body that you thought was dead

I'm not giving up on this  
Lips reminding me of our first kiss

All this time I was running blindly  
I wanna see you on the side  
So come and find me  
Rest your head  
You can lay beside me  
You'll never have another lonely night  
As far as I see

Flesh and bone  
Perfect soul

All this time I was running blindly  
I wanna see you on the other side  
So come and find me  
Rest your head  
You can lay beside me  
You'll never have another lonely night  
As far as I see

All this time I was running blindly  
I wanna see you on the other side  
So come and find me  
Rest your head  
You can lay beside me  
You'll never have another lonely night  
As far as I see

Flesh and bone  
Perfect soul

Flesh and bone  
Perfect soul  
Flesh and bone
