

Monsters

The Pierces

You and me against the world
Like a little boy and girl
There were monsters beneath our bed
And we were scared until we taught them all to sing and then we
had a laugh instead

You and me on stormy seas
It had brought us to our knees
There were dangers, all around
And we were frightened by the wind and when it blew until it bl
ew us to dry ground

Baby here we are tonight
The dark will turn into the sunlight
Don't you know it always does
It always was
And it will be all right

You and me among the crowd
I heard you shout my name out loud
And there were strangers all around
And I was lost until the moment when you came and took my hand
and I was found

You and me with no regrets
And I will try not to forget
There is nothing we could do
That will ever change the love we have
Remember that my aim is true

Baby here we are tonight
The dark will turn into the sunlight
Don't you know it always does
It always was
And it will be all right
