

# You'll Be Mine

The Pierces

We could bring a blanket for the grass  
Cover up your eyes so you don't see  
If you let me go I'm running fast  
One two three count one two three  
We could watch the black birds cross the skies  
We could count the leaves left on the trees  
We could count the teardrops in our eyes  
One two three yeah one two three  
One two three yeah one two three  
Now you know now you know  
How I feel and I won't back down

Prick your finger on a spinning wheel  
But don't make a sound  
Drop of blood and now you're taken  
For all time  
With a kiss you will awaken  
And you'll be mine you'll be mine you'll be mine

I could always stay and work it out  
Wondering if you still wanted me  
But there are so many things to doubt  
One two three count one two three  
Think that for a moment you were mine  
I know that you saw what we could be  
But then you went and changed your mind  
One two three yeah one two three  
One two three yeah one two three  
Now you know now you know  
How I feel and I won't back down

Prick your finger on a spinning wheel  
But don't make a sound  
Drop of blood and now you're taken  
For all time  
With a kiss you will awaken  
And you'll be mine
