

## Higher

The Pietasters

The higher I get, the farther I fall  
Sick of it all, get away get away from you  
The higher I go, the higher I want to stay  
Away from reality and get away from you  
The more that I want, the more that you take away  
All the I'm trying to say is get away from me  
The higher I get, the farther I fall  
Sick of it all, get away get away from you  
'Cuz I've been down before my friends and I'm not gonna  
fall  
'Cuz I've been down before my friends and I'm not gonna  
fall back baby  
I've never seem to wonder why  
You always want to see me cry  
Always try to turn to the ones you love  
I've never seem to wonder why  
You always want to see me cry  
Always try to turn to the ones you love  
'Cuz I've been down before my friends and I'm not gonna  
fall  
'Cuz I've been down before my friends and I'm not gonna  
fall back baby  
I'm so high, I can only take me higher  
You can take me higher, I let you take me there  
I'm so high, I can only take me higher  
You can take me higher, I let you take me there
