

Need to Know This

The Pigeon Detectives

I saw you outside
And I know where you've been
Know you'll do it again
What's that you said? Alright
Well I know they're your friends
But I can't speak to them

What you gonna say about it now?
Cause I need to know this, yeah I need to know this

You make me say those words
And I know what you mean but still I hope you'll come clean
Is this the way of the world?
Cause I just can't figure it out they're making me go without

What you gonna say about it now?
Cause I need to know this yeah I need to know this

What you gonna say about it now?
Cause I need to know this yeah I need to know this

What you gonna say about it now?
Cause I need to know this yeah I need to know this

What you gonna say about it now?
Cause I need to know this yeah I need to know this

What you gonna say about it now?
Cause I need to know this yeah I need to know this
