

## We Love You

### The Pineapple Thief

So wonder if there's anything left in your one horse town,  
I wonder you'd get if I never was around,  
Don't you know we love you,  
We love you

I've given you all my heart in this one horse town,  
I should thank your lucky stars, thank them you were found,  
Cos you know we love you,  
We love you

Oh I know you must be frightened in this one horse town,  
Come into my arms and kiss this sacred ground,  
Don't you know we love you,  
We love you

I need your soul,  
I need your soul,  
To feed my world,  
To feed my world

Don't you know we love you

I need your soul,  
I need your soul,  
To feed our world,  
To feed our world

We need your soul,  
We need your soul,  
To feed our world,  
To feed our world

We need your soul,  
We need your soul,  
To feed our world,  
To feed our world

We need your soul,  
We need your soul,  
To feed our world,  
To feed our world

We need your soul,  
We need your soul
