

## Face Me

## The Plot in You

Do you see the scales on me?  
Feeble tongue, or hues of green?  
I don't feel like catching prey  
But I don't feel like anything

I sit in my head  
Stray from the truth  
Pick at the scabs, don't look at the past  
Got something to lose  
But I feel the tension from every direction  
It's my reflection  
I correct 'em, don't even mention  
You can't fix my soul, my crutch, my home  
Feed it but it's best just left alone  
My dear, my foe, my holy ghost  
Never gave a damn 'til it's face was shown

Your face was shown  
(Is it something you wanna do?)  
(Is it something you wanna do?)  
Your face was shown  
(Is it something you wanna do?)  
(Is it something you wanna do?)

So just face me, 'cause I can make a change  
So maybe just chase me, 'cause I can make a change

Do you see despair on me?  
I've cut close ones carelessly  
Some have passed and most don't change  
But when I go I leave them peace  
I don't wanna be the love you prevail from  
I don't wanna be the waves in your sea  
I was never pegged as one you'd depend on  
But that changed when your face was shown

(Is it something you wanna do?)  
(Is it something you wanna do?)  
Your face was shown  
(Is it something you wanna do?)  
(Is it something you wanna do?)

So just face me, 'cause I can make a change  
So maybe just chase me, 'cause I can make a change

(My baby loves me, my baby loves me)  
(My baby loves me, my baby loves)

Do you wanna feel what I felt?  
I stayed awake for days in this hell  
And what I paid for my sin would bring most men straight to their end  
Straight to their end  
Till your face was shown

(Is it something you wanna do?)  
(Is it something you wanna do?)  
Your face was shown

(Is it something you wanna do?)  
(Is it something you wanna do?)

So just face me, 'cause I can make a change  
So maybe just chase me, 'cause I can make a change
