

# Got to Find Love

The Pointer Sisters

Down on my luck  
Love don't come around much more  
Sure seems funny  
I've been down the road before  
I walk these streets  
Lookin' for some kinda sign  
All things change in time  
I wanna believe

That we have got to find love  
Yeah, find love  
We have got to find love, find love

If we just hold on  
I know the best is yet to come  
We've got to hold on  
There is a heart for everyone

We have got to find love  
Ooh, find love  
We have got to find love, find love

The sun just won't shine  
I need to see things brighter  
Your love could build a fire  
And warm my soul  
But I ain't givin' up, no, no, no  
Though I never was a fighter  
Lord, my load could be so much lighter  
So much lighter

And we have got to find love  
Yeah, find love  
We have got to find love, find love

If we just hold on  
I know the best is yet to come  
We've got to hold on  
There is a heart for everyone

We have got to find love  
We've got to find love  
We have got to find love  
We've got to find love

We have got to find love  
We've got to find love  
(We have got to find love)  
We've got to come together  
(Find love)  
We've got to come together

(We have got to)  
Whoo-ooh-ooh, find love  
Why won't we find love  
We have got to find love  
We have got to, we have got to

(Find love)  
We have got to find love...
