

# Everything

The Poodles

Here comes the night, again  
I wait for the light, and then  
You are gone  
How can I go on?

You're a fire burning in my soul  
It's a feeling that I can't explain  
And tonight my heart is going cold  
At the thought of losing you again

Everything you say  
Everything you do  
Brings me back to the nights with you  
Just the way you move  
And the way you smile  
Let me stay with you a while  
'Cause this time I know  
That I can't let you go  
Everything I say  
Everything I do  
Is because of you

Here comes the pain, I know  
I waited in vain, alone  
You're not here  
How can I go on?

And tonight my heart is going cold  
At the thought of losing you again

Everything you say  
Everything you do  
Brings me back to the nights with you  
Just the way you move  
And the way you smile  
Let me stay with you a while  
'Cause this time I know  
That I can't let you go  
Everything I say  
Everything I do

Tonight I leave the past behind  
Oh, yeah  
I dream of what we never found

Everything you say  
Everything you do  
Brings me back to the nights with you  
Just the way you move  
And the way you smile  
Let me stay with you a while  
Everything you say  
Everything you do  
Brings me back to the nights,  
back to the nights with you  
Just the way you move  
And the way you smile

Let me stay with you a while  
`Cause this time I know  
That I can't let you go  
Everything I say  
Everything I do  
Is because of you
