

Streets Of Fire

The Poodles

I'm not trying to hide
the hunger i feel inside
It's under my skin a fire within
I can't deny oh yeah
I'm outta control
you better get out of my way
My body and soul as one in the role
I stalk my pray
These are my streets of fire
And i fight to be free
There's a fire and it's burning in me
These are my streets of fire
And i live to be strong
Gotta be where i'll always belong, oh
It's all in the game
I play with a heart of steel
I'll tellin' you now, i'm showin' you how
I always feel, oh yeah
These are my streets of fire
And I fight to be free
There's a fire and it's burning in me
These are my streets of fire
And i live to be strong
Gotta be where i'll always belong, oh
Fight
These are my streets of fire
And I fight to be free
There's a fire and it's burning in me yeah
These are my streets of fire
And i live to be strong
Gotta be where i'll always belong
These are my streets of fire
And I fight to be free
There's a fire and it's burning in me yeah
These are my streets of fire
These are my streets of fire
