

Love Is Good

The Pretty Things

She was just a lonely girl
But I didn't know if I should try
She was just a lonely girl
But I didn't know just which way she'd fly

Over by the corner now she stands
Cornered by the angels of her many plans

She was just the saddest girl
From that sad old American town
Staring at the empty stage
To see some ego tripping rock 'n' roll band

Over by the corner now she stands
Cornered by the angels of her many plans

Love is good love is sweet
Lover hold my hand
Love is good love is sweet
Lover hold my hand

Solo
She was just a lonely girl
But I didn't know if I should try
She was just a lonely girl
But I didn't know just which way she'd fly
