

## The Sun

## The Pretty Things

The sun  
The sun will cross the sky  
Cross the sky  
You reach out  
You reach out  
But it's too high  
It's too high  
Will you settle?  
Will you settle?  
Will you settle?  
Will you settle?  
Will you settle for that water touched by land?  
Water touched by land

When the sun has passed you by  
Passed you by  
In the dark  
In the darkness  
You will cry  
You will cry  
And your tears  
And your tears  
And your tears  
And your tears  
And your tears will be soaked up by the sun

Soaked up by the sun

It's been my fault  
Yes, mine from the start  
If I told you  
I've never fallen so hard  
So hard  
Yes  
It's been that for

The sun  
The sun has passed you by  
Passed you by  
In the dark  
In the darkness  
You will cry  
And your tears  
And your tears  
And your tears  
And your tears  
And your tears  
And your tears will be soaked up by the sun

Soaked up by the sun  
Touching on the land  
Soaked up by the sun
