

# Walking Through My Dreams

The Pretty Things

When I'm unhappy and in my eyes things are bad  
I just have to close them, oh and suddenly I'm glad

Walking through my dreams at night  
You're walking through my dreams at night  
Walking through my dreams and I'm not free

I never worry 'cause I never get the time  
You sweep all thoughts away when you cross my mind

Walking through my dreams at night  
You're walking through my dreams at night  
Walking through my dreams and I'm not free

(instrumental break)

Walking through my dreams at night  
You're walking through my dreams at night  
Walking through my dreams and I'm not free

Who'll lift my sleepy head, in case the vision goes?  
Here in purple velvet now, where time emotion slows

Walking through my dreams at night  
You're walking through my dreams at night  
Walking through my dreams and I'm not sleeping

ah ah ah ah (repeat) to fade
