

Simple Fix

The Prize Fighter Inferno

Dead stop out on the west-side highway
Burning in the blazing sun, alive
Trapped inside my life
Dashboard from dry to cracking
AC, the white noise deafening
I need anything, to get me out of this

Ooh, you were just the fix, so gimme me what I want
Gimme what I want, gimme gimme
Radio's in disrepair, just gimme what you got
Gimme what you got, gimme gimme
Gimme gimme

All this time wasted, spending
Here in the company of stranger eyes
Oh, where can I hide? Just get me out of here!

Ooh, you were just the fix, so gimme me what I want
Gimme what I want, gimme gimme
Radio's in disrepair, just gimme what you got
Gimme what you got, gimme gimme
Gimme gimme
Gimme gimme, gimme gimme
Gimme gimme, gimme gimme!

There is no weirder notion
Stuck in this mobile beast
We'll pledge our devotion
Just give us something, please

Ooh, you were just the fix, so gimme me what I want
Gimme what I want, gimme gimme
Radio's in disrepair, just gimme what you got
Gimme what you got, gimme gimme
Gimme gimme

Oh! Radio's in disrepair, just gimme me what I want
Gimme what I want, gimme gimme
Radio's in disrepair, just gimme me what I want
Gimme what I want, gimme gimme
Oh, take me back to where I wanna go
