

Close these eyes, solid darkness inside
Ask for atonement, mourner's lament is me
Betrayed by the traitors, unblessed by the saviors
Scorned be His sorrows, the end of all times is me

Hear them speak no more
Of their rights to my throne
Their rights died with them,
their glory died with them
For they are all forlorn
Bleed here in my arms, bleed eternally
This crown is yours, my life is yours
My sins are always yours

They don't ask for sympathy,
they don't ask for agony
But they ask for purity to secure their bloodline

Seductress of Light, temptress of God
I loathe you!
Seductress of Light, temptress of God
I loathe you!

I repent, I am shame
I regret all this blame
I resent, I am blame I
repent, I am shame
I am shame!

Lord, cast your light upon them so they can see
I'm feared by many but challenged by none
Lord, my words are written in blood for them to read
And they will be spoken for all time to come

Solemn... Solemn... Solemn... Solemn...
Solemn... Solemn... Solemn... Solemn...

Depraved, enslaved
Betrayed and slain
You came to make amends
I came to bring the end

I say goodbye in this solemn moment we share
Death Ritual Covenant is what we are
