

# THE GOSPEL OF THE FLESH AND ALL HIS SINS

The Project Hate MCMXCIX

Nightmares and horror visions abandon all hope  
My body's hanging from a burning rope  
Waiting for my time to come, let creation be undone  
I'm facing down, my mouth is full of blood  
But I'm not dead yet, I'm not dead yet  
Time to watch me give my life for you  
and your dead  
You have signed my grave, made me your slave  
I am Hell, I'm inside you,  
forever from this day I am the way

You're on your knees, your eyes cry blood  
You seek forgiveness, now where's your God?  
The serpents gather, dethrone The Father  
Redemption is nowhere to be found  
First resurrection, then second death  
Admire the fornication for she will not repent  
The birth of King Serpent, The Stillborn, our chaos  
I know thy words of those who've betrayed us

Fight 'til you drop, fight 'til they stop  
Don't be afraid, it's their time to pay  
Out of the ashes, my flesh is warm  
I rise like a Phoenix, once again I'm reborn

The tide is turning, the moon cast its spell  
Law of nature seems in order for a while  
We are drawn to each other  
by the laws of Mother Nature  
We can fight against each other  
But in the search on the verge, we will merge  
Left, left, left, right, left  
I'm going to sneak up from behind  
Left, left, left, right, left  
And take what's rightfully mine  
Left, left, left, right, left  
What did I just say? Who can it be?  
Left, left, left, right, left  
Something's taking over me  
Left, left, left, right, left  
Left, left, left, right, left  
Searching, searching, I'm still searching  
I know that you're out there lurking  
Left, left, left, right, left  
Show yourself, I have you surrounded  
Left, left, left, right, left  
Left, left, left, right, left  
Left, left, left, right, left  
There's no way out  
Left, left, left, right, left  
Left, left, left, right, left  
Halt!

They shall drink of the wine of the wrath of God  
Spitting lies in the face of the fallen  
Blaspheme his name, Ye Of The Earth  
Welcome centuries of torment, welcome our death

The Earth will rest after the war  
It's scourged and deeply sore

King of kings, lord of lords  
Slain and conquered, all forlorn

You shall all fear me and glorify my name  
For I am Sin Incarnate, the last burning flame  
I scorch the Earth with fire, with fire I am one  
I burn the holy scripture, your Savior is undone  
Burning, keep burning, keep burning, burning  
You will burn in your own flames  
Burning, keep burning  
Queen of queens, whore of whores  
Saved and slaughtered, denied, reborn

Save me from this darkness I've been dragged into  
I made a promise that no Savior will come true  
You open your mouths and curse this day  
Bless this day  
Rejoice in massacre, demons awake  
I'm awake, I'm awake  
Hear their prayers, feed their dismay  
See me betray, I shall not be, you are not me

Cast all fear aside, eyes are open wide  
The only way down this road  
Is to merge my divinity  
with your insanity and implode

Here is nothing but war  
Feel my wrath, hear me roar  
For this I've come, for this shall be mine  
There is no Earth I will leave unscorched  
We're running out of time, we're running out of time  
What's rightfully yours is now mine  
And what's mine, we can no longer define  
Coe join me for a dance, one last dance  
Help me, use your fire  
Help me, with my desire  
There is no Earth I will leave unscorched
