## Leave It Like It Is

## The Prostitutes

```
We both thought
It would last forever
Now the memories gone
         Emi
Where did we go wrong
Theres no point in killing each other
Theres no point at all
Theres no point at all
Your offering peace instead of hope
Tell me what's worth more
Tell me what's worth more
Your taking away the cause of my smile
Tell me what's worth more
       Emi
Tell me what's worth more
There's no point in killing each other
          Ami
There's no point at all
          Emi
There's no point at all
Should we just leave it like it is
Should we just leave it like it is
                             Emi
Should we just walk away and forget that we first met
Emi C Emi
I don't want to see your angry face
In my dreams at night
     Emi
In my dreams at night
```

I want to remember the way that you were

 $\boldsymbol{\mathsf{C}}$  When you used to smile
