

I Know Just How You Feel

The Quakes

Well, I know just how ya feel
Well, I can't find love that is real
Well, I've searched all around this town, but I won't hang around
I can't find a broken heart to heal

Well, I know just how ya feel
Well, I can't find love that is real
Well, the harder I try, the harder I cry
I can't find love that is real

Well, I know just how ya feel
Well, I can't find love that is real
Well, the harder I try, the harder I cry
I can't find love that is real

Well, now..

Well, I know just how ya feel
Well, I can't find love that is real
Well I've searched all around this town, but I won't hang around
I can't find a broken heart to heal

Maybe someday I won't be so lonely
Maybe someday I won't feel this way
Maybe someday soon I might find a girl to love me, and I won't
have to go around this way

Oh, I won't have to go around this way
