

# We Got Game

The Radio Dept.

There's a choice to be made  
We never used to blindly disobey  
But now, make some noise  
Never fade  
Retrace the steps of millions before us  
What is fair to get ahead?  
It's not an even game if you can't bid  
They don't care  
Never did  
If we want it we will have to take it from the overfed

We got game  
And we were put to shame  
Acting kind  
So we came to speak our minds  
And what else?  
What else?  
What else could we do?  
Jumpcut  
Horses  
Riots

You keep talking middle ground  
So sick of hearing about that middle ground  
This is it, you can't go 'round  
There's just no other middle to be found  
Like with this bunch of racist loons  
The kind of guys you wouldn't like to spoon  
If in power  
One whisky sour  
And everyone I love would be jailed within the hour  
So...

We got game  
And we were put to shame  
Acting kind  
So we have changed our minds  
And now what?  
Now what?  
Now what will they do?  
Jumpcut  
Horses  
Riots  
Is it true?  
Laser beam  
Swat team  
Not a dream

I believe Paris Grey  
Singing "the sun will chase the clouds away"  
I believe what she say  
Because I want and have to believe that way

Is it true?  
Paycuts  
Gunshots  
Riots

Yes it's true  
It is true  
Mind you  
It's true
